OCT - Point of view - (Up, Down-etc)

NOV - Open

DEC - Close-up - NATURE

Jerry's Ramblings ... Thoughts from the Club President

We are going into the back end of summer. I went to the Ohio State Fair, and there were huge photo opportunities! Everything from the 8 year-old girl "showing" her lamb, to the kids eating cotton candy, with their hands covered in pink sugar. Summer brings a wealth of shooting opportunities. I hope you are taking advantage of them!

The field trips we've had haven't been well attended. I know there are always scheduling problems, but try to get out with others. As we heard from Janet last month, she picked up something helpful for her images by spending time shooting with Mark. Shooting with others is a great way to enhance your skills. You are either learning something, or re-enforcing something by helping others. Make sure to ask questions and get opinions by having others look through your view-finders. Maybe you'll get to borrow a lens that you don't have, for some different looking pictures.

I've got a nice who will be attending The University of Texas this fall, majoring in fine arts. She is more of a "sketch person" now, but also enjoys her photography. Most of it goes to her Facebook page. I enjoy looking at her stuff, and images from other teens, because they bring a different perspective to me. Not a straight horizon in the bunch! Everything is taken at an angle, and there are people with only half their face showing. Sometimes, I don't get it, but all her friends do. Still, I am learning.

Don't be surprised to see a deer going uphill, with trees growing sideways sometime in the future. Maybe it will be on my Facebook page, with my arms on either side of the picture.

Get out and shoot!

Jerry Fritsch
